

TABLE DES AUTEURS

AEBISCHER, T. — Voir LOWREY, D.M.	
AKAHOSHI, T. — Voir MATSUSHIMA, K.	
ANDRADE, C.R., SILVA, O.A., ANDRADE, P.P., KOLK, A.H.J. and HARITH, A.E. — A direct agglutination test discriminative toward Chagas' disease for the diagnosis of visceral leishmaniasis in Brazil: preliminary results	457
ANDRADE, P.P. — Voir ANDRADE, C.R.	
ANTONI, G. — Voir BORASCHI, D.	
ARRIAT, D. — Voir DUBOIS, P.	
AURIAULT, C., PANCRÉ, V., JOSEPH, M., DAMONNEVILLE, M., FALCOFF, E. and CAPRON, A. — The effector function of platelets is induced and regulated by T lymphocytes	585
AURON, P.E. and WEBB, A.C. — The structure and regulation of the human prointerleukin-1 beta gene	462
AUTRAN, B. — Voir VILMER, E.	
AVRAMEAS, S. — Voir MAHANA, W.	
AVRAMEAS, S. — Voir MATSIOTA, P.	
BACH, M.-A. — Voir LAUNOIS, P.	
BAKOUCHE, O. — Voir LACHMAN, L.B.	
BARA, J. and DECAEN, C. — Blood-group-related antigens in colonic carcinogenesis	891
BARBET, J. and PIERRES, M. — Thy-1 solubilization from mouse T cells by phosphatidylinositol-specific phospholipase C: biochemical and antigenic characterization	531
BAREL, M. — Voir HATZFELD, J.	
BARRATT, G.M., NOLIBÉ, D., YAPO, A., PETIT, J.-F. and TENU, J.-P. — Use of mannosylated liposomes for <i>in vivo</i> targeting of a macrophage activator and control of artificial pulmonary metastases	437
BENBUNAN, M. — Voir VILMER, E.	
BENSIMON, C. — Voir WAKASUGI, H.	
BERKE, G. — An appraisal of some current thoughts on cytolytic T-lymphocyte killing mechanisms	305
BERREBI, G. — Voir MUNGER, W.E.	
BERTOGLIO, J. — Voir WAKASUGI, H.	
BETTAIEB, A., VILLEVAL, J.L., KIEFFER, N., FARACE, F., EDELMAN, L., CARTON, J.P. and VAINCHENKER, W. — Early erythroid markers as probes for normal and leukaemic erythroid differentiation	877
BIOZZI, G. — Voir GENNARI, M.	
BJÖRKLUND, M., FORNI, L. and COUTINHO, A. — T-cell-dependent modulation of the polyclonal B-lymphocyte responses in normal spleen cell cultures stimulated by lipopolysaccharide	181
BLACKWELL, J.M. — Voir KAYE, P.M.	
De BOER, T.G.J. — Voir KAMPS, W.A.	

BORASCHI, D., ANTONI, G. and TAGLIABUE, A. — Active fragments of IL-1: towards a dissociation of the functions?	492
BOTTAZZO, G.F., TODD, I., SCHWARZ, G., GALE, E.M. and PUJOL-BORRELL, R. — On the pathogenesis of human type I diabetes: where do we stand?	117
BOUÉ, A. — Voir CANDELIER, J.J.	
BOUGUELERET, L. — Voir CHALUFOUR, A.	
BOURHIS, J.H. — Voir VILMER, E.	
Le BOUTEILLER, P. — Voir FERRIER, P.	
BOUTHILLIER, Y. — Voir GENNARI, M.	
BOYER, C., LANGLET, C., GUIMEZANES, A., BUFRNE, M., HUA, C. and SCHMITT-VERHULST, A.-M. — Phosphorylation of T-cell antigen receptor-associated proteins: correlation with activation for killing and/or for gamma-interferon production by a cytolytic T-cell clone	65
BRODY, D.T. — Voir DURUM, S.K.	
BRUNET, J.-F., DENIZOT, F., DOSSETO, M., SUZAN, M., CLARK, W.R., HAQQI, T.M., LUCIANI, M.-F. and GOLSTEIN, P. — A molecular biology approach to the mechanism of T-cell-mediated cytotoxicity	331
BRUNET, J.-F. — Voir LUCIANI, M.-F.	
BUC-CARON, M.-H., CONDAMINE, H. and KERJASCHKI, D. — Rat Heymann nephritis antigen is closely related to brushin, a glycoprotein present in early mouse embryo epithelia	707
BUFRNE, M. — Voir BOYER, C.	
BURAKOFF, S.J. — The role of the CD4 (L3T4) molecule in T-cell activation. Introduction	125
BURAKOFF, S.J. — Voir GREENSTEIN, J.L.	
BUSSON, P. — Voir WAKASUGI, H.	
CAILLA, H. — Voir NICOLAS, M.	
CANDELIER, J.J., COUILLIN, P., ROTURIER, M. et BOUÉ, A. — Mise en évidence des antigènes de surface cellulaire sur des coupes de cryostat grâce à des anticorps monoclonaux	275
CAPRON, A. — Voir AURIAULT, C.	
CARTON, J.P. — Voir BETTAIEB, A.	
CAVAILLON, J.-M. and HAEFFNER-CAVAILLON, N. — Interleukin-1	461
CAVAILLON, J.-M. — Voir HAEFFNER-CAVAILLON, N.	
CEROTTINI, J.-C. and MacDONALD, H.R. — Molecular mechanism of T-cell-mediated cytotoxicity	289
CHALUFOUR, A., BOUGUELERET, L., CLAVERIE, J.-M. and KOURILSKY, P. — Rare sequence motifs are common constituents of hypervariable antibody regions	671

INDEX DES ARTICLES PUBLIÉS

Tome 138

Molecular interactions in the «GAT» idiotypic network: an approach using synthetic peptides, G. MAZZA, V. GUIGOU, D. MOINIER, S. CORBET, P. OLLIER and M. FOUGEREAU	3
Serological and structural analysis of HLA class I molecules: β 2-microglobulin interacts with the two external domains of the HLA class I heavy chain, P. FERRIER, B. KAHN-PERLES, C. LAYET, P. PONTAROTTI, J. SIRE, R. HAKEM, P. LE BOUTEILLER, A. TOUBERT, B. PERARNAU, J. ROUDIER, A. GILLET and F.A. LEMONNIER	19
P815 mastocytoma cells, classical targets for cytotoxic T lymphocytes, exert natural cytotoxicity, M.-F. LUCIANI, J.-F. BRUNET, F. DENIZOT and P. GOLSTEIN	37
Recognition of hybrid HLA molecules expressed on murine P815 cells using human alloreactive cytotoxic T lymphocytes, F. HEALY, J. SIRE, B. KAHN-PERLES, E. GOMARD, J.P. LÉVY and B.R. JORDAN	45
All in the superfamily: presentation of antigen receptors in the context of the major histocompatibility complex, L. LESERMAN	53
Phosphorylation of T-cell antigen receptor-associated proteins: correlation with activation for killing and/or for gamma/interferon production by a cytolytic T-cell clone, C. BOYER, C. LANGLET, A. GUIMEZANES, M. BUFERNE, C. HUA and A.-M. SCHMITT-VERHULST	65
Enzyme immunoassay of 2'-5'-oligoadenylates at the femtomole level, M. NICOLAS, L. LAURENCE, A. LUXEMBOURG, H. CAILLA and J. MARTI ..	83
Monocytes activate eosinophils for enhanced helminthotoxicity and increased generation of leukotriene C ₄ , P. ELSAS, T.H. LEE, H.L. LENZI and A.J. DESSEIN	97
<i>Letters to the Editor</i>	
On the pathogenesis of human type I diabetes: where do we stand?, G.F. BOTTAZZO, I. TODD, G. SCHWARZ, E.M. GALE and R. PUJOL-BORREL	117
16th Forum in Immunology: «The role of the CD4 (L3T4) molecule in T-cell activation»	125
Hypothesis: a molecular model for the MHC-restricted recognition of antigens by the T-cell receptor, R.J. POLJAK	175
T-cell-dependent modulation of the polyclonal B-lymphocyte responses in normal spleen cell cultures stimulated by lipopolysaccharide, M. BJÖRKLUND, L. FORNI and A. COUTINHO	181
<i>In vitro</i> inhibition of macrophage spreading by antigens and lymphokines: correlation with the footpad test and kinetics of inhibition, R. MAZURAN and V. SILOBRCIC	201
Biological effect of transferrin on mast cell mediator release during the passive cutaneous anaphylaxis reaction a possible inhibition mechanism involving iron, S. MÉCHERI, G. PELTRE, J. LAPEYRE and B. DAVID	213

Detection of natural autoantibodies in the serum of anti-HIV-positive individuals, P. MATSIOTA, S. CHAMARET, L. MONTAGNIER and S. AVRAMEAS	223
T-cell phenotyping in the diagnosis and management of AIDS and AIDS-related disease, M.S. GOTTLIEB, R. DETELS and J.L. FAHEY	235
Immune pathogenesis of AIDS and related syndromes, J.L. FAHEY, J. GIORGI, O. MARTINEZ-MAZA, R. DETELS, R. MITSUYASU and J. TAYLOR	245
AIDS and cancer, J.L. ZIEGLER	253
Antiretroviral therapy and immunologic reconstitution in AIDS, A.S. FAUCI and H.C. LANE	261
Is lymphocyte transfer a promising therapeutic approach towards AIDS?, E. VILMER, D. VITTECOQ, B. AUTRAN, W. ROZENBAUM, D. DORMONT, C. RABIAN, J.H. BOURHIS, J.J. MONSUEZ, M. BENBUNAN and E. GLUCKMAN	269
Mise en évidence des antigènes de surface cellulaire sur des coupes au cryostat grâce à des anticorps monoclonaux, J.J. CANDELIER, P. COUILLIN, M. ROTURIER et A. BOUÉ	275
17th Forum in Immunology: «Molecular mechanism of T-cell-mediated cytotoxicity»	287
Effects of antimitotic treatment on haematopoietic tissues in mice, M. LÉVY and M. RAPHAËL	347
Effect of silica on the genetic regulation of antibody responsiveness, M. GENNARI, Y. BOUTHILLIER, O.M. IBANEZ, V.C.A. FERREIRA, J.C. MEVEL, M.H. REIS, R.M. PIATTI, O.C. RIBEIRO and G. BIOZZI	359
Polyclonal B-cell activation by influenza A/Texas virus-specific human T-cell clones, D. JUY, G. STERKERS, A. GOMEZ, D. ZELIZEWSKI and J.-P. LÉVY	371
Changes in recognition of <i>Plasmodium falciparum</i> antigens by human sera depending on previous malaria exposure, P. DUBOIS, P. DRUILHE, D. ARIAT, M. JENDOUBI and H. JOUIN	383
Immune resistance to <i>Trypanosoma cruzi</i> : synergy of specific antibodies and recombinant interferon gamma <i>in vivo</i> , F. PLATA, F. GARCIA-PONS and J. WIETZERBIN	397
Immunity conferred upon mice by anti-LPS monoclonal antibodies in murine brucellosis, J. LIMET, A.-M. PLOMMET, G. DUBRAY and M. PLOMMET	417
RU-41740 (<i>K. pneumoniae</i> glycoprotein) enhances resistance to experimental candidiasis and stimulates phagocytic functions, P. SMETS, M.F. SALLES, M. ROMMAIN, R. ZALISZ, M. YAGELLO and M. GUENOUNOU	425
Use of mannosylated liposomes for <i>in vitro</i> targeting of a macrophage activator and control of artificial pulmonary metastases, G.M. BARRATT, D. NOLIBÉ, A. YAPO, J.-F. PETIT and J.-P. TENU	437
Le C3 stimule la prolifération des cellules humaines pré-B de la lignée Raji, J. HATZFELD, C. CHARRIAUT-MARLANGUE, J.P. LEVESQUE, M. BAREL, R. STANCOU, L. KRIKORIAN, A. HATZFELD et R. FRADE	451
A direct agglutination test discriminative toward Chagas' disease for the diagnosis of visceral leishmaniasis in Brazil: preliminary results, C.R. ANDRADE, O.A. SILVA, P.P. ANDRADE, A.H.J. KOLK and A.E. HARITH	457
18th Forum in Immunology: «Interleukin-1»	461
Is prior mycobacterial infection a common predisposing factor to AIDS in Haitians and Africans?, G. LAMOUREUX, L. DAVIGNON, R. TURCOTTE, M. LAVERDIÈRE, E. MANKIEWICZ and M.C. WALKER	521
Thy-1 solubilization from mouse T cell by phosphatidylinositol-specific phospholipase C: biochemical and antigenic characterization, J. BARBET and M. PIERRES	531
Basal and lipopolysaccharide-inducible membrane alkaline phosphatase of lymphoid cells from mice with immune system dysfunctions, L. MOSBACH-OZMEN and F. LOOR	549
Generation of <i>Leishmania</i> -specific short-term T-cell lines derived from peripheral blood of cured American cutaneous leishmaniasis patients, J. HENDRIKS, S.G. COUTINHO, L. CYSNE and R.C.C. DOREA	561

Immunological activities of RU-41740, a glycoproteic extract from <i>Klebsiella pneumoniae</i> . II. — Activation of macrophage cytotoxicity against tumour cells and production of a cytotoxic factor, F. VACHERON, P. SMETS, C. NAUCIEL and M. GUENOUNOU	571
The effector function of platelets is induced and regulated by T lymphocytes, C. AURIAULT, V. PANCRÉ, M. JOSEPH, M. DAMONNEVILLE, E. FALCOFF and A. CAPRON	585
<i>Letters to the Editor</i>	
B-cell-derived interleukin-1, H. WAKASUGI, C. BENSIMON, Y. MAHÉ, P. BUSSON, L. RIMSKY, D. FRADELIZI, J. BERTIGLIO and T. TURSZ	599
19th Forum in Immunology: «Mode of action of cyclosporin A»	605
Rare sequence motifs are common constituents of hypervariable antibody regions, A. CHALUFOUR, L. BOUGUELERET, J.-M. CLAVERIE and P. KOURILSKY	671
An immunogenic complex of alkali-treated lipid A and methylated bovine serum albumin, M. ESKENAZY, R. TEKELIEVA and R. IVANOVA	687
The <i>Mycoplasma hyopneumoniae</i> plasma membrane as a vaccine against porcine enzootic pneumonia, M. KOBISH, L. QUILLIEN, J.P. TILLON and H. WROBLEWSKI	693
Rat Heymann nephritis antigen is closely related to brushin, a glycoprotein present in early mouse embryo epithelia, M.-H. BUC-CARON, H. CONDAMINE and D. KERJASCHKI	707
<i>Mycobacterium leprae</i> -reactive T-cell clones isolated from polar lepromatous and tuberculoid leprosy patients, P. LAUNOIS, P. SHANKAR, D. WALLACH, B. FLAGEUL, F. COTTENOT and M.-A. BACH	723
20th Forum in Immunology: «Immunobiology of experimental leishmaniasis»	737
Both natural and induced murine anti-TNP antibodies possess anti-DNA activity, W. MAHANA, P. MATSIOTA and S. AVRAMEAS	805
Production of T suppressor factor specific for the hapten picryl chloride requires both T suppressor cells and an antigen-specific, genetically restricted second signal, F. DIELI, G. COLONNA ROMANO, D. LIO and A. SALERNO	815
Characterization by anti-Ig monoclonal antibodies of protective and non-protective antibodies against asexual forms of <i>Plasmodium falciparum</i> in the Saimiri monkey, J. GYSIN, S. PAUILLAC and T. FANDEUR	829
Evolution of ABH blood group antigens during embryogenesis, A.E. SZULMAN	845
Blood group markers and oncofoetal antigens, L. EDELMAN	849
Biochemical and immunochemical studies of the expression of glycosphingolipid-based ABH and related antigens in normal cells and in plasma, K. LINDSTRÖM, L. RYDBERG and B.E. SAMUELSSON	857
Structural and conformational studies of carbohydrate oncodevelopmental antigens, E.F. HOUNSELL	863
Study of haemopoiesis in the human embryonal and foetal liver, W.A. KAMPS, W. TIMENS, T.G.J. de BOER, T. ROZEBOOM-UITERWIJK, H.H. SPANJER and S. POPPEMA	869
Early erythroid markers as probes for normal and leukaemic erythroid differentiation, A. BETTAIEB, J.L. VILLEVAL, N. KIEFFER, F. FARACE, L. EDELMAN, J.P. CARTRON and W. VAINCHENKER	877
Blood group antigens in urinary bladder: from A antigen to A epitopes, P. ROUGER, P. GANE and C. SALMON	885
Blood-group-related antigens in colonic carcinogenesis, J. BARA and C. DECAENS	891
Sucrase-isomaltase in colon cancers: an example of re-expression of a foetal enzyme with associated blood group antigens, I. CHANTRET	901
<i>Letters to the Editor</i>	
On the immunobiology of experimental leishmaniasis, P.M. KAYE, M.B. ROBERTS and J.M. BLACKWELL	907
